Transmittal of a Corrected Computer Readable Form (CRF) of the Sequence Listing
Under 37 CFR §§1.821-1.825

Sir:

The present application has been allowed and is in issue. After payment of the issue fee, Applicants were advised by the Office that the diskette containing the computer readable form (CRF) copy of the Sequence Listing on file, which was originally submitted on January 30, 2008, was not acceptable because the CRF was not in the accepted text file, i.e., ".txt", form. No Notice of Missing Parts was issued by the Office.

Applicants transmit herewith via EFS-Web a CRF of the Sequence Listing currently on file in .txt file form.

Applicant verifies the following:

1. The enclosed computer readable form of the Sequence Listing for the above-identified patent application is the same in content as the paper copy of the Sequence Listing currently on file, as required by 37 CFR §1.825(b);

2. The enclosed computer readable form of the Sequence Listing for the above-identified patent application contains no new matter and does not go beyond the original disclosure of the application, as required by 37 CFR §1.825(a); and
3. The enclosed computer readable form of the Sequence Listing for the above-identified patent application is in a form and format in accordance with 37 CFR §§1.822, 1.823, and 1.824.

Respectfully submitted,
